This study uses a "bottom-up" approach, focusing on specific population groups such as those living in crowded urban housing complexes and portside communities. Even greater total benefits can be seen when taking into account comparable communities outside of these specific markets and locations.

ABOUT BIODIESEL AND RENEWABLE DIESEL

Biodiesel (B100) provides immediate community health improvements that can be measured in reduced medical costs and health care burdens as shown in a two part study completed for Clean Fuels Alliance America by Trinity Consultants.

HOW THIS WORKS...

B100 can achieve these benefits by reducing pollution from markets that are hardest to decarbonize: heavy-duty transportation and residential heating.

This study uses a “bottom-up” approach, focusing on specific population groups such as those living in crowded urban housing complexes and portside communities. Even greater total benefits can be seen when taking into account comparable communities outside of these specific markets and locations.
